NNN Chili Supper

On March 7, 2018 Neighbors and Community Partners gathered in the Holy Cross Grade School Gymnasium to share in in the Annual NNN Chili Supper. A large crowd filled the space as chili and cornbread overflowed bowls and hearts.
We want to thank all our cooks, bakers and helpers, as well as the generosity of Holy Cross Parish in sharing their space. A special tip of the hat to Colleen New, her Kid Zone and those beautiful pitillas.
Most importantly, here are winners of the Chili contest:

John and Nola Mynesburg
Pat Kepschull
Scott Banaka
Cyn Haas
Jeff Stanifer & Andre Stone (tie)
Lyle Lantz
Mike Hebbeler
Sheila McCarthy
Jess Hunter Bowman

Congratulations and Thanks to ALL! We hope you will continue to practice your chili-making, and plan to join us next year.

Portage & Elwood (Martin’s Plaza) Neighborhood Center Vision

Neighbors, we’ve reported our interest and efforts focusing on the changes at the Grocery Store at Portage and Elwood in previous newsletters. Now, the City of South Bend is inviting all neighbors to participate in a community visioning process for the Elwood Plaza, the Drewny’s site, and Muessel Grove Park. We hope you are able to come and share your vision for this large and important area of the northwest side.

The City’s Portage & Elwood Neighborhood Center Vision framework is intended to serve as a guide to business and property owners, residents, developers, City staff, elected officials, and others in making investment, land use and design decisions. The objectives of the Framework are to:

 Establish a community vision for the Center;
 Facilitate the revitalization of the underutilized and underdeveloped Center;
 Ensure attractive, well designed development that enhances the image of the Northwest side and the City;
 Ensure desirable, multifunctional, and unique development which fits into its surroundings and that serves the needs of city residents;
 Generate private investment in and near the Center; and
 Direct improvements to public infrastructure such as streets, sidewalks and open spaces, within the Center.

The City of South Bend has hired consultant Opticos Design, Inc. to lead a design charrette to develop a market-based conceptual framework forth Portage & Elwood Neighborhood Center. Neighbors and community members were invited to attend a public meeting with City staff and Opticos Design, Inc. to share their thoughts and help create a vision for the area, with approximately 75 participants attending on April 17, 2018.

Design Charrette, May 6-9, 2018 at NNN Community Center

Neighbors and community members are invited to share their ideas for the future vision of the Portage & Elwood Neighborhood Center during a four-day workshop. There will be multiple chances for the public to be involved and share their thoughts. The community is welcome to attend any or all sessions:

Sunday, May 6th 4pm - 6pm Opening Presentation
Monday, May 7th 10am - 5pm Open Studio drop-in hours
Monday, May 7th 5pm - 7 pm Public Open House
Tuesday, May 8th 10am - 5pm Open Studio drop-in hours
Tuesday, May 8th 12pm - 1pm Brown Bag Lunch Talk
Wednesday, May 9th 10am - 1pm Open Studio drop-in hours
Wednesday, May 9th 6pm - 8 pm Closing Presentation

All sessions will be held at the Near Northwest Neighborhood, Inc. Community Space, 1013 Portage Ave. Parking is available across the street from the space as well as next to the building. For additional information about the Portage & Elwood Neighborhood Center Vision, contact the Department of Community Investment at 574-235-5821. Information is also available at http://www.southbendin.gov/government/content/portage-elwood-neighborhood-center-vision
**The Art of Neighboring**

*Thoughts from your “Neighborhood Networker” André Gingerich Stoner*

Flourishing communities and neighborhoods have multiple “third places,” spaces where people can hang out, talk, meet new people and old friends. They are different than the privacy of homes (“first place”), or the structure of the neighborhood (“second places”).

One important “third place” in the NNN is The Local Cup, housed in the NNN building on Portage. Other “third places” in the neighborhood are Frank’s Place (I’m always struck by the mix of folks in our neighborhood tavern), the Sunrise Café, schools and parks. I’ve often said we live in a “front-porch neighborhood,” not a “deck subdivision.” In our neighborhood, streets and sidewalks are “third places” for meeting neighbors and building community.

Some of the characteristics of “third places” are that they are accessible and neutral ground where everyone feels welcome; they are leveling places where economic or social status don’t matter; conversation is a main activity; the mood is playful; and old and new friends can be found there. This spring and summer, they are accessible and neutral ground where everyone.

**Mulch Madness in the NNN!**

On April 14, NNN neighbors, the NNN Community Outreach Team, and nearly 120 volunteers from Notre Dame, as part of the Back the Bend Day, and beyond, spread mulch around dozens of NNN homes. At the beginning of March, a smaller team did an illuminating and successful trial run on one block.

All together, we mulched almost 100 houses – more than 70% - in the fifteen block area of Sherman, Harrison and Cottage Grove, between California and LWW. The NNN Community Outreach Team went door to door three times a week in the eight weeks before the big event, making contact with more than 80% of the residents to gain consent for mulch distribution.

The primary purpose of Mulch Madness, was to cover bare soil most likely to be contaminated with lead. This physical barrier reduces direct contact to lead-contaminated soil as well as exposure to lead through dust. This partnership was part of the ongoing work of the NNN to respond to the high levels of lead contamination in parts of our neighborhood.

---

**Green and Healthy Homes Initiative**

After working on issues of lead contamination for more than a year, the NNN along with other partners, is encouraging the city of South Bend to become a Green and Healthy Homes Initiative “compact city.”

GHHI is a national leader in addressing lead contamination. Based in Baltimore, GHHI was successful in reducing lead contamination in Maryland by 98% working strategically and intentionally over a fifteen-year period.

Attend the NNN annual meeting on Thursday, May 10, as we hear from the Mayor’s office how his administration plans to partner with GHHI to make our community lead-safe.

---

**Community Outreach Team Meeting Neighbors**

Kim Brantley, Emily Dean and Kim Clowers, three-part time members of the NNN team, are hard at work. Their primary focus is on the problem of lead contamination especially in Census Tract 6, the part of our neighborhood west of Portage Ave.

After community health worker training in January, they have been learning about lead and meeting partners including staff at the St. Joseph County Health Department, Notre Dame, neighborhood churches and schools.

In March and April they went door to door preparing for Mulch Madness. They are now going door to door in the neighborhood, especially building relationships with families with children under the age of seven. They will then follow-up with families with information and resources to prevent lead contamination.

If you see members of the team around the neighborhood, please introduce yourselves and introduce them to your neighbors!

---

**Shetterley Triangle Groundbreaking**

A formal groundbreaking was held on April 27th on the site where six new houses will be built in the Shetterley Triangle, and one home renovated.

The six homes have been designed by New Energy Homes. Four of them will be built by Habitat for Humanity of St. Joseph County as a precursor to the Jimmy & Rosalynn Carter Work Project in Mishawaka, August 26-31, 2018. The other two will be built by Thrive Michiana and New Energy Homes and sold at market rate. Shetterley Triangle is bounded by California, Woodward, and De Maude avenues.

We look forward to welcoming new neighbors! Any potential homeowners interested in a Habitat home, are encouraged to contact Habitat for Humanity of St. Joseph County at https://www.hfhsjc.org/homeownership/

**Adopt a Block Rocks Neighborhood Streets**

At the very heart of functioning Neighborhoods there is a spirit of shared purpose and vision. The NNN’s shared spirit is always highly visible at the Annual Adopt A Block. This year on April 14 we gathered on a relatively soggy, if not overly cold Saturday morning to hit our streets, pick up litter and enjoy one another’s company.

It was a very communal effort. Doug Kizer of Portage Meat and Market made a last minute delivery of donuts after his delivery truck broke down on the bypass, then suffered lift gate issues. Not to fear, Doug made sure we had our favorite doughnuts just before the doors opened at 8 AM. Neighbors got a bite to eat, met old and new friends, caught up on the latest local news, posed for a community photo and then took to the streets of the NNN.

It was delightful that some of the very neighbors that cleaned blocks during the week prior to the official clean up day still showed up to share coffee and light breakfast fare. Rain did not dampen spirits as volunteers remained resolutely cheerful throughout the event. Many returned to the NNN/Local Cup after cleaning up to bask in the warm glow of civic engagement, donuts and coffee.

The crew from South Bend Code Enforcement was as always instrumental in the logistic success of the day. They provided support by driving local streets, handing out supplies and generally supporting neighbors however they could. Organizer Clark Glover did his usual amazing job wrangling support by driving local streets, handing out supplies and generally supporting neighbors however they could. Organizer Clark Glover did his usual amazing job wrangling.

Neighborhood Streets

At the very heart of functioning Neighborhoods there is a spirit of shared purpose and vision. The NNN’s shared spirit is always highly visible at the Annual Adopt A Block. This year on April 14 we gathered on a relatively soggy, if not overly cold Saturday morning to hit our streets, pick up litter and enjoy one another’s company.

It was a very communal effort. Doug Kizer of Portage Meat and Market made a last minute delivery of donuts after his delivery truck broke down on the bypass, then suffered lift gate issues. Not to fear, Doug made sure we had our favorite doughnuts just before the doors opened at 8 AM. Neighbors got a bite to eat, met old and new friends, caught up on the latest local news, posed for a community photo and then took to the streets of the NNN.

It was delightful that some of the very neighbors that cleaned blocks during the week prior to the official clean up day still showed up to share coffee and light breakfast fare. Rain did not dampen spirits as volunteers remained resolutely cheerful throughout the event. Many returned to the NNN/Local Cup after cleaning up to bask in the warm glow of civic engagement, donuts and coffee.

The crew from South Bend Code Enforcement was as always instrumental in the logistic success of the day. They provided support by driving local streets, handing out supplies and generally supporting neighbors however they could. Organizer Clark Glover did his usual amazing job wrangling helpers from across and beyond the neighborhood. Our heartfelt thanks to all who had a hand in this year’s success.

Adopt A Block succeeds because neighbors work together. It’s always a clear reminder that community is alive and well in our part of the City of South Bend.
